Skilled in designing intuitive user experiences, building responsive websites, and developing scalable web applications. Proficient in Figma, WordPress, HTML/CSS, JavaScript, Angular, and PHP with strong problem-solving and collaboration skills. Passionate about bridging design and technology to deliver seamless digital solutions.

SKILLS

Design Tools : Figma, Adobe XD, Photoshop, Illustrator

Development : HTML, CSS, JavaScript, Angular, jQuery, Bootstrap, React.js, Node.js, PHP

Databases : MySQL, Microsoft SQL, MongoDB

Platforms : WordPress, Visual Studio, Github, Agile & Scrum Methodologies

WORK EXPERIENCE

i-Cons Technologies

Process Associate

Jun 2023 - February 2025

- Managed and processed digital dental design files for crowns, bridges, and orthodontic models with accuracy and precision.
- Reviewed 3D scans, collaborated with design teams, and ensured adherence to quality standards.
- Strengthened transferable skills in attention to detail, process improvement, and cross-team collaboration.
- Maintained detailed case records and ensured timely completion as per client specifications and deadlines.

Artalona Pixels

Graphic Designer

May 2020 - February 2022

- Designed and delivered high-quality digital assets for real estate and e-commerce brands, including retouching, layout design, and visual enhancements.
- Created marketing visuals, social media creatives, and brand-consistent design systems for client campaigns.
- Collaborated with cross-functional teams to ensure timely project delivery within 24-hour turnaround cycles.
- Gained hands-on expertise in Adobe Photoshop, Illustrator, and Lightroom, building a strong foundation for UI/UX design.

PROJECTS

- UI/UX Case Study – Netflix**
Redesigned Netflix’s mobile app UI using Figma, focusing on usability, navigation flow, and improved interactions for better content discovery.
- Game Portfolio Design (Figma Prototype)**
Designed a playable gaming portfolio experience using Figma interactive prototypes with game-style transitions and user engagement flow.
- Soft-drink Product & E-commerce Landing Page Animation Slider (Figma)**
Developed animated landing pages with smooth slider transitions, enhancing user interaction and responsive layouts using Figma prototypes.
- Personal Blog Site & Portfolio (HTML5, CSS3, JavaScript)**
Developed a static responsive blog website (Morning Time) & Portfolio Design using HTML5 and CSS3, featuring clean layouts, reusable UI components, and cross-device compatibility.
- Full E-commerce Website – Frontend & Backend**
Developed a fully functional eCommerce platform with user authentication, product management, and secure payment gateway integration using modern full-stack technologies.
